

Product information

“Simple, quick, reliable”

The three tried and tested sealing compounds Curil T, Dirko HT, and Dirko S.

For a wide variety of applications on small engines, gardening tools (saws, lawnmowers, etc.), scooters, light motorcycles, boat engines, vintage cars, and many other areas.

All the advantages combined into one set

- A choice of sealing compounds for different applications, for example, for filling sealing gaps, for use on force-locked seals (no sealing gap)
- Sealing compounds in handy 20 ml tubes with dispensing nozzles—practical during application on small sealing surfaces
- Detailed instructions on the product and its use included
- Cardboard package with Euro loop for optimum presentation in the showroom

Contents
